

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

日本からは Thyle II の白雲がよく見えている。Efrain Morales Rivera が Argyre (30W, -50 )付近に記録した雲とは緯度が異なる。そのほかには、これまでの様子と違う状態はない。

(by 6 observations; reported by Makoto Adachi)

The white clouds of Thyle II are clearly visible from Japan. The latitude is different from the clouds recorded by Efrain Morales Rivera near Argyre (30W, -50). Other than that, there is nothing different from what it was like so far.

(by 6 observations; reported by Makoto Adachi)
