

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2021 年 1 月 24 日

Argyre (30W, -50) が明るくなった。

left image

2021, Jan. 13 01h08m UT

左右の画像を見比べると、Argyre に明部が見える。色を見るとダストのようだ。24 日の前を遡ると、同じ地域は 1 月 13 日まで遡らなくてはならない。そのため、間が空きすぎて、直前の様子は分からないままになった。今後の変化に注目したい。

Comparing the left and right images, you can see the bright part in Argyre. Looking at the color, it looks like dust. Going back 24 days, the same area must go back to January 13. As a result, there was too much space left, and the situation just before was unknown. I would like to pay attention to future changes.
