

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2021 年 3 月 4 日

Mike Hood は Hellas 付近の観測をした。形はいびつだが全体を見ることができた。北の端が最も明るくなっている。B 画像を見ると、西側には白雲が広がっているように見えるが、R 画像でも非常に明るく、ダスト混じりになっているらしい。

(by 2 observations; reported by Makoto Adachi)

2021, Mar. 4

Mike Hood made observations near Hellas. He was distorted in shape but could see the whole thing. The northern end is the brightest. Looking at the B image, it seems that white clouds are spreading to the west, but the R image is also very bright and seems to be mixed with dust.

(by 2 observations; reported by Makoto Adachi)
