今日は、筆者だけの観測となった。シーイングが日本には良かったので、模様を濃く見ることができた。今シーズンに入って、最も模様が濃く見えた。北半球は黄色っぽく、一見してダスティーだということが分かる。

Today, it was only the author's observation. Seeing was good for Japan, so I could see the pattern deeply. This season, the pattern looked the darkest. The northern hemisphere is yellowish, and at first glance it can be seen that it is dusty.
