

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2022 年 4 月 1 日 (2022, Apr. 01)

Clyde Foster はほぼ同じ地域を観測した。2 日間の観測を比べると、Arsia Silva Mons (W120,-3)の雲が、ターミネーターに近づくと明るくなってくる様子が、非常に良く分かる。Xanthe (W53,+15)は、白雲によって明るく見えている。

Clyde Foster observed almost the same area. Comparing the two-day observations, it is very clear that the clouds of Arsia Silva Mons (W120,-3) become brighter as they approach the terminator. Xanthe (W53, +15) looks bright due to white clouds.

(by 1 observation; reported by Makoto Adachi)
