

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

Carsten Bauer の画像では、Mare Acidarium (20~45W,+40~55)が増すかに記録されている、赤画像でははっきりしているため、ダストに覆われている様子が分かる。この付近のリムがかなり明るいオレンジ色になっている様子から、広がりが広いことも分かる。

In Carsten Bauer's image, Mare Acidarium (20 ~ 45W, + 40 ~ 55) is recorded as increasing, and in the red image, it is clear that it is covered with dust. From the appearance that the rim around here is quite bright orange, it can be seen that the spread is wide.

(by 2 observations; reported by Makoto Adachi)
