

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

佐藤の画像は、ターミネーター付近に Noctis L. (96W, -6)が雲で白くなった姿を記録している。ここしばらく Arsia Silva Mons (W120,-3)からこの地域は雲に覆われている。(9月13日のコメント参照) 筆者は Solis Lacus (W90;-28)付近を観測したが、模様が見えにくく、靄の影響を受けているように思う。

Sato's image records Noctis L. (96W, -6) whitened by clouds near the Terminator. Since Arsia Silva Mons (W120,-3), the area has been covered by clouds for some time. (See the comment on Sep. 13) I observed the area around Solis Lacus (W90;-28), but the pattern was difficult to see and I think it was affected by the haze.

(by 3 observations; reported by Makoto Adachi)
