

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

Manos Kardasis は今日も赤道帯霧（氷晶雲）を記録した。前日とほぼ同じイメージで、変化はない。リムがかなり黄色く見えるが、この付近の大気がダスティーになっているようだ。南半球のリムがオレンジ色なのは、ダストではなく地表の色のように見える。

Manos Kardasis recorded equatorial band fog (icy clouds) again today. The image is almost the same as the previous day, with no change. Limb appears quite yellow, but the atmosphere in this area seems to be dusty. The orange color of the limb in the southern hemisphere appears to be the color of the ground surface, not dust.
