

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

眞島は Mare Sirenum (140W~170W,-30)付近を観測した。カラー画像では Mare Sirenum はあまり暗く写らない。しかし、IR ではこの画像のようにかなり暗く写る。南半球がダスティーな状態にあることがよくわかる。

Mashima observed the area around Mare Sirenum (140W~170W,-30). In the color image, Mare Sirenum does not appear very dark. However, in the IR image, it appears quite dark, as in this image. You can clearly see that the southern hemisphere is in a dusty state.
