12 月 10 日に見つかったダストストームの展開を知りたかったが、観測条件が悪く、はっきりしなかった。和田は観測条件の悪い中だったが、ダストストームの起こっているところが明るくなっている様子だけを記録できた。

He wanted to know how the dust storm discovered on December 10th was evolving, but the observation conditions were poor and it was not clear. Despite the poor observation conditions, Wada was only able to record the area where the dust storm was occurring becoming brighter.
