

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

Clyde Foster から観測報告があった。画像を見ると Meridian (0W,-5)が小さく見える。Edom (360W,2)は明るく、Meridiani (0W,-5)の東側（上を南にして左側）が淡くなっているように見える。何があったのかはわからないが、通常の姿ではない。

Clyde Foster reported the observation. In the image, Meridian (0W,-5) looks small. Edom (360W,2) is bright, and the east side (left side when facing south) of Meridiani (0W,-5) seems to be faint. I don't know what happened, but it's not a normal appearance.

(by 1 observation; reported by Makoto Adachi)
