

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025年7月31日 (2025, Jul. 31)

この2日間 Mare Acidarium (20~45W, +40~55)の東側が明るく記録されていたが、今日はその部分が明るく記録され、Arabia (310W~330W~+35~+10)方面がダスティーになっている様子が観測されている。B画像でも明るく記録され、ダストと夕霧の両方が見えているようだ。

For the past two days, the eastern side of Mare Acidarium (20~45W, +40~55) has been recorded brightly, but today that area is recorded brightly, and the direction of Arabia (310W~330W~+35~+10) is observed to be dusty. It is also recorded brightly in image B, and both dust and evening mist seem to be visible.

(by 1 observation; reported by Makoto Adachi)
