

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025 年 10 月 4 日 (2025, Oct. 04)

Mare Cimmerium (W180~W250, -40~0)が淡いのは、白雲せいだ。低緯度帯の雲は Ishidis (270W, +23)「付近の雲が濃い。Mare Cimmerium (W180~W250, -40~0)付近の雲も見られている。N P Cが見えにくいのは、付近を覆う、雲が原因だろう。Ausonia (W235~270, -55~-20)から Eridania (200~230W, -35~-55)付近も雲に覆われているようだ。

Mare Cimmerium (W180~W250, -40~0) appears faint due to white clouds. The low-latitude clouds around Ishidis (270W, +23) are dense. Clouds can also be seen around Mare Cimmerium (W180~W250, -40~0). The NPC is difficult to see, likely due to the clouds covering the area. Areas from Ausonia (W235~270, -55~-20) to Eridania (200~230W, -35~-55) also appear to be covered in clouds.

(by 1 observation; reported by Makoto Adachi)
