1 月 6 日に見られた、白雲の帯は、今日も健在である。Tiziano Olivetti の B 画像を見ると、その様子が非常によくわかる。また、南極付近のリムに見える白雲もよく記録されている。

The white cloud belt seen on January 6 is still alive today. If you look at the B image of Tiziano Olivetti, you can see how it looks very well. The white clouds on the limb near Antarctica are also well documented.
