

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2021年5月23日

前日と同じ様子が記録されている。伊藤の stack only の画像では、北極を取り巻く黒いベルトが写っている。肉眼で観測して見える様子と同じで筆者は安心した。NPC はかなり小さくなり、眼視観測とこの画像の大きさが今の大きさをしめしている。今シーズンは大きな NPC を見ることなく終わるが、エッジダストストームなどの砂嵐がみえにくく、残念である。

2021, May, 23

The same situation as the previous day is recorded. The image of Ito's stack only shows the black belt surrounding the North Pole. I was relieved that it was the same as what I could see with the naked eye. NPCs have become much smaller, and visual observations and the size of this image show their current size. This season ends without seeing a big NPC, but it's a shame that sandstorms such as edge dust storms are hard to see.
