

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2022 年 2 月 12 日

Elysium (215W,+30)が赤く明るく記録された。南半球も北半球も高緯度地方が黄色くダスティーになっている。画像の赤道付近は、R や G 画像で、東西に帯状に明るくなっている。これは、通常の見え方である。

2022、Feb. 12

Elysium (215W, +30) was recorded bright red. In both the Southern and Northern Hemispheres, the high latitudes are yellow and dusty. The area near the equator in the image is an R or G image, which is bright in a band shape from east to west. This is the normal appearance.
