

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

Mark Lonsdale は問題の場所を観測した。シーイングは悪くても Cerberus (200W,+20~220W,+10)は見えている。4 月 15 日に Elysium (215W,+30)は明るかったが、今日は明るくなく、代わりにその東側に白雲が発生している。

Mark Lonsdale observed the location of the problem. Cerberus (200W, + 20-220W, + 10) is visible even if seeing is bad. Elysium (215W, +30) was bright on April 15th, but it is not bright today, instead with white clouds on its eastern side.

(by 1 observation; reported by Makoto Adachi)
