

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

真島の観測では SPC の右のリムが明るい。これは SPC 周囲のダストを横から見ている。低緯度のリムが白っぽく記録されたのが興味深い。

In Majima's observations, the limb to the right of the SPC is bright. This is a side view of the dust around the SPC. It is interesting that the low-latitude limbs were recorded as whitish.

(by 1 observation; reported by Makoto Adachi)
