

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

観測は二人から送られてきた。どちらも Moab (335W-350W, +15)や Aeria (W300-W330, +40-0)の砂漠地方を観測している。この砂漠の地域は暗く目立つ模様はほとんどない。ダストベールが拡がると、ますます模様は見えにくくなる。この部分にはっきりした模様が出てきたら、コントラストのつけすぎを疑う必要がある。

The observations were sent by two people. Both observed the desert regions of Moab (335W-350W, +15) and Aeria (W300-W330, +40-0). These desert regions are dark and have few prominent patterns. As the dust veil spreads, the patterns become more and more difficult to see. If a clear pattern appears in this area, you should suspect that the contrast is too high.

(by 2 observations; reported by Makoto Adachi)
