

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

今日は一人だけの観測になった。観測は、時間を空けての 2 回の観測で、非常に有用である。これから火星の観測できる時間は長くなってくる。観測が同じ時間帯にならないような工夫をされることを期待したい。

Today, I was the only observer. The two observations, spaced apart at different times, are very useful. From now on, the time available for observing Mars will be longer. I hope that they will take measures to ensure that observations are not conducted at the same time.

(by 1 observation; reported by Makoto Adachi)
