

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

長瀬は画像を動画にした。見比べると Alba (115W.+45)の雲が南北に移動しているような様子がとらえられている。おそらく雲の移動ではなく、新しい雲の沸き上がりではないかと思う。せっかく記録しているが、2枚の時間の間隔がないのが残念だ。荒川の画像が参考になる。

Nagase made a video of the images. Comparing them, it appears that the clouds of Alba (115W.+45) are moving north and south. I think that this is probably not cloud movement, but the formation of new clouds. It's a shame that there is no time interval between the two images, even though he took the time to record them. The image of Arakawa is helpful.
