

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025 年 4 月 25 日 (2025, Apr. 25)

Hellas (275~315W, -30~60)の白雲が目立っている。Ausonia (W235~270, -55~-20)の南部がリム付近で赤黒く記録され、ダスティーにはなっていない様子が分かる。Syrtis Major (293W, +0~20) と Mare Tyrrehenum (W220~275, 0--40)はほぼ同じ色合いで、淡い白雲が覆っているようだ。

The white clouds of Hellas (275~315W, -30~60) stand out. The southern part of Ausonia (W235~270, - 55~-20) is recorded as dark red near the limb, and it is clear that it is not dusty. Syrtis Major (293W, +0~20) and Mare Tyrrehenum (W220~275, 0--40) are almost the same color, and seem to be covered with pale white clouds.
